OBJECTS TO THE SMELTER

F. W. Stratford Re-elected President R. T. Rhees of Pleasant View Claims That the Fumes Would Lose Him Thousands of Dollars.

other smelters and states that his will be no exception.

In reply to this objection the projectors of the enterprise state that Mr. Rhees is complaining before he is hurt and state that if conditions were the same as they are at Sandy there might be some cause for complaint. They state that no copper will be smelted at the Ogden smelter, and it is these fumes that are the most damaging. They also say that if their capacity was 10,000 tons per day, as at the Salt Lake county infirmary, wants and of or per day, as at the Salt Lake County infirmary, wants and other trial of his libs suit against the Salt Lake county infirmary, wants and the made immediate and hurried preparations.

W. R. Jones, jr., superintendent of the Salt Lake county infirmary, wants and the republic had been declared to be in a Sandy smelters, instead of about 200 tons of ore per day, there might be cause for objection. Notwithstanding the objections raised by Mr. Rhees work on the new smelter will be commenced as soon as the weather will permit and the same will be rushed through to completion. David Ecoles stated vesterday that there was plenty of capital behind the enterprise to insure its success and that while they would at first start on a small scale they would at first start on a small scale they would at first start on a small scale they would increase in a short time and carry out the plans to their fullest extent.
